### What to do

- 1 Gather photos of your guests, and print out so their face is prominent in each 4"x 6" photo print.
- 2 For each framed photo, use rubber cement or glue stick to glue the print onto colorful or decorative paper, for the back of the frame. If desired, print out a menu, recipe, or saying on this backing, to add value to the souvenir party favor.
- 3 Using aluminum foil tape (duct tape), approximately 2" wide "frame tape," "frame" the photo, staying close in around the face. Also add foil to the back along the bottom.
- 4 Trim the top and side edges about 1/2" to 3/4" beyond the photo, but leave at least 1 1/2" along the bottom. For interest, use pinking shears or decorative-edge scissors along the top and side edges. Leaving 1 1/2" long at the center bottom, trim the bottom corners to match the top corners.
- 5 If desired, use a hole punch (1/8" circle used here) to pierce the frame at even intervals.
- 6 For a base use a pear or apple. Brush the fruit with honey or melted apricot jelly. Let set for a few minutes, then sprinkle sugar on top; large, clear decorative sugar crystals will be most reflective. Set fruit on its flattest side atop a doily on a plate. With a long, sharp kitchen knife cut a slit 1" deep into the opposite side of the fruit, slanted towards the stem or core. Slip the framed photo into this slit.

**These framed photos can also be used as stocking stuffers, gift tags and a small thank you!**
