## What to do

- 1 Gather photos of your guests, and print them so each face is prominent in each 4"x 6" photo print.
- 2 For each framed photo, use rubber cement or glue stick to glue the print onto colorful or decorative paper, for the back of the frame. If desired, print out a menu, recipe or saying on this backing, to make this souvenir party favor special.
- 3 Using 3 different colors of electrical and/or duct tape, "frame" the photo. Start with one color, and adhere strips to form a rectangle, staying close in around the face. With another color, adhere strips just 1/4" beyond the first set. Add a concentric rectangle with the third color. Ensure you have a wide border of at least 1", especially along the bottom. Create a wide border along the bottom on the back as well.
- 4 Trim the edges, leaving at least 1" along the bottom. For interest, use pinking shears or decorative-edge scissors along the top and side edges.
- 5 For a base, lay a green, red, orange, or yellow pepper on its flattest side. With a long, sharp kitchen knife, cut a slit 1" deep into the opposite side of the pepper, slanted towards the stem. Slip the framed photo into this slit.
