## What to do

- 1 Lay large leaves on heavy-weight, two-sided papers. Trace around in pencil, then cut out. Crop photos to eliminate excess background, and glue to one or both sides of leaves. Hot-glue an alligator clip to the stem end of each leaf.
- 2 Weight a decorative container with rocks or a brick. Wedge floral foam into container, and push in branches. Clip the photo leaves along the branches.
- 3 Cover the foam with moss. Insert dried and artificial florals as desired

***This is a great picture portfolio to display at any family gathering!***
